Dear Sir/Madam:

The above complainant has advised this office that operation of the radio station of which you are licensee is allegedly related to the interception of unwanted radio signals affecting an authorized service licensed by the Federal Communications Commission.

Please contact the complainant. If the reception of undesired radio signals is the responsibility of your station, check its operation to ensure it is in full compliance with the applicable Rules and Regulations of the Commission. Combined efforts of the licensee and complainant are often indispensable to the solution of impaired reception problems.

We appreciate your cooperation.

Very truly yours,

for Debra Thomas
